

Car Seat Quick Facts

- Always refer to the instruction manual of the car seat and owner's manual of vehicle for instructions on installing car seats.
- When a child is rear facing the harness straps should be at or below the shoulders
- The retainer clip of a 5 point harness should be at armpit level on your child
- Keep a child rear facing as long as the car seat will allow
- When a child is forward facing the harness straps should be at or above the shoulders
- If able, always tether a forward facing car seat
- Keep a child in a 5 point harness as long as possible to provide the best protection
- Check to make sure a booster seat positions the seat belt appropriately on your child
- When a booster seat is not in use, buckle it in with a seat belt to avoid it flying around in a crash
- Never use a booster seat with just a lap belt
- Refer to vehicle's owner manual for installing car seats in close proximity to an air bag
- Children under 13 years of age are not recommended to be in the front seat
- Never add a non-regulated car seat product (ex. Toys, mirrors, seat protector, etc.) as it has not been crash tested
- Make sure all items in your vehicle are secure to avoid an object flying around in a crash
- Never leave a child unattended in or around a vehicle
- Always check your car seat before you lock your vehicle to assure you have your child with you.
