

COVID-19 Pop-up Testing in Putnam County

The holidays are typically times where many gather to celebrate. Unfortunately even with small groups of our closest families and friends, there is serious risk for exposing our loved ones to COVID-19. The Putnam County Health Department is working with the Ohio National Guard, the Ohio Department of Health, and Mercy Health St Rita's to ensure residents have access to COVID-19 testing in the midst of the holiday season.

Sunday, December 6th

12:00pm to 4:00pm

Putnam County Fairgrounds

A blue and red graphic with white and yellow text. At the top, a red banner reads "ANYONE CAN GET A NO-COST TEST AT THIS LOCATION". Below, on a blue background, it says "Ottawa" and "Sunday, December 6". A yellow square bullet point is followed by "Putnam County Fairgrounds", "1490 South Agner St., Ottawa, Ohio 45875", and "12:00 p.m. – 4:00 p.m.". At the bottom left is the "#IN THIS TOGETHER Ohio" logo with a red heart. At the bottom right is a black box with "coronavirus.ohio.gov" in yellow.

- Anyone can get a NO COST TEST
- No appointment necessary
- No doctor's order needed
- Testing location is available to anyone, not just residents of Putnam County
- Minors (17 and under) will need signed consent by parent/guardian
- Testing ages 2 years old and up
- Testing Quantities limited

Results should be available within 2-3 days (but may take longer). Stay home until test results are returned if you have any COVID-19 symptoms or you have suspected or known exposure to the virus. Monitor your health and call your health care provider if symptoms develop or worsen.

Anyone who tests positive will be called by St Rita's notification team and then followed up with by a representative of the Health Department.

Clinic/Facility Name: _____
 Account #: _____
 Provider(s): _____
 Collection Date: _____

1 Industry Drive, Henderson, NC 27537
 Phone: (252) 572-2795
 Fax: (252) 572-4595
 CLIA ID: 34D2141858

COVID-19 REQUISITION

1. Patient Demographics

Last Name: _____ First Name: _____ MI: _____
 Date of Birth: _____ Gender: M F Race: _____ Ethnicity: _____
 Address: _____ City/State/Zipcode: _____ Bill To: _____
 Phone #: _____ Email Address: _____ Client Bill

2. Test Selection and Diagnosis Code Selection

720100 COVID-19 SARS-COV-2 by RT-PCR U0003

COVID-19 DX CODES

R05
Cough

R50.9
Fever, unspecified

Z03.818
Encounter for observation for suspected exposure to other biological agents ruled out
For cases where there is a concern for possible COVID-19 exposure

Z20.828
Contact with and (suspected) exposure to other viral communicable diseases.
Only to be used if actual exposure with someone confirmed to have COVID-19

R06.02
Shortness of Breath

Z11.59
Encounter for screening for other viral diseases

3 WAYS TO GET YOUR RESULTS:

- 1 Simply text: **MAKO to 66349**
- 2 Go to: <https://mako.luminatehealth.com>
- 3 Scan this QR code with your smartphone: 

You get swabbed,
sample is collected

Four-Day Test Turnaround

Samples are
transported to lab
via FedEx or
Courier Service

Two days are
required for the
lab to process
your sample.

One day is
needed to
generate and
upload your results

1 to 2 DAYS

1 to 2 DAYS

1 DAY

After 4 days,
get your results

If you have not received your test results within four days of collection, please call MAKO.

NOTE: Please do not call the lab unless four full days have passed.

Thank you for your patience during this pandemic. Our team is working 24/7 to help thousands of families every day.

I understand that texts sent by Luminare Health are not encrypted and that others who have access to my phone will be able to see my texts.

3 MANERAS DE OBTENER RESULTADOS:

- 1 Envíe un texto: **MAKO to 66349**
- 2 Diríjase a: <https://mako.luminatehealth.com>
- 3 Escanee el código QR con el teléfono inteligente: 

Se le realiza un hisopado y se toma una muestra

Después de cuatro días, recibirá los resultados

Si no recibió los resultados de la prueba en los cuatro días posteriores a la toma, llame a MAKO.

NOTA: No llame al laboratorio a menos que hayan pasado cuatro días completos.

Gracias por su paciencia durante esta pandemia. Nuestro equipo está trabajando las 24 horas de los 7 días de la semana para ayudar a miles de familias todos los días.

Entiendo que los mensajes de texto enviados por Luminare Health no están encriptados y que otras personas que tienen acceso a mi teléfono podrán ver mis mensajes de texto.

Thank you for taking the first step in keeping yourself, your loved ones and Ohio safe. Below are some next steps you can expect after getting tested.

1 I've taken the test for COVID-19. What's next?

Tests results are **typically returned within 48 hours**, but may take longer.

2 What should I do while I wait for my results?

If you have had **suspected or known exposure or ongoing symptoms**, stay home, monitor your health, and talk to your doctor or other healthcare provider.

If you **do not have signs or symptoms, but have known or suspected exposure to COVID-19**, stay home since symptoms may appear 2 to 14 days after exposure to an infected person.

If you **do not have signs or symptoms and have no known or suspected exposure to COVID-19**, staying home is not required, but continue following public health measures.

Begin to build a list of the people you have recently been around.

Respond to the health department's outreach.

Go to coronavirus.ohio.gov for more information.

You can also call the Ohio Department of Health with any questions you have about COVID-19.

1-833-4-ASK-ODH (1-833-427-5634)

Note: The call center is staffed from 9 a.m. to 8 p.m. each day.

When to stay home

Who needs to stay home and away from others?

1. People who have **signs or symptoms** of COVID-19
2. People who have been in **close contact** with someone who has an active COVID-19 case
3. People who have **no symptoms** but have **tested positive** for infection with COVID-19

Symptoms may appear **2-14 days** after last exposure to an infected person.

If you have been tested and are awaiting test results, continue to follow public health guidance until test results are received.

Tests results are typically returned within 48 hours, but may take longer.

What counts as close contact?

Standing within 6 feet for 15 minutes

Direct physical contact

Shared utensils

A nearby sneeze or cough

Home care for someone who is sick with COVID-19

How do I safely stay at home and away from others?

People who are isolated or quarantined should take the following actions to keep themselves and others safe:

Keep your physical distance from others – stay in your bedroom, use separate bathrooms.

Do not leave your home (unless necessary for medical care).

Do not allow visitors to your home.

Wipe down high-touch areas every day with a disinfectant.

Go to coronavirus.ohio.gov for more information.

I've gotten my test results. Now what?

I've tested positive for COVID-19: What do I do?

If you have or develop signs or symptoms, stay at home and away from others (isolate yourself) for at least 10 days **AND** until all three of these things are true:

Symptoms are better.

It has been 10 days since you first felt sick.

No fever for at least 24 hours without medicine.

Contact your healthcare provider or seek care if needed.

If you do not have symptoms, stay home for 10 days from the date of your test.

I've tested negative for COVID-19: What do I do?

If you have or develop **signs or symptoms**, stay home and away from others and continue to monitor symptoms. Talk to your doctor or other healthcare provider about staying home and if you need to get tested again.

If you **do not have signs or symptoms but have known or suspected exposure**, you should stay home until 14 days after your last exposure. Symptoms may appear 2 to 14 days after exposure to an infected person.

If you **do not have signs or symptoms and no known or suspected exposure**, staying home is not required, but continue to follow public health measures.

Go to coronavirus.ohio.gov for more information.

Answer the call. Protect your loved ones and fellow Ohioans.

What is contact tracing?

Contact tracing involves identifying people who may have COVID-19 due to contact with those who have tested positive for COVID-19.

Contact tracing slows the spread of COVID-19 by:

Notifying people they may have been exposed to COVID-19 and should monitor their health for signs and symptoms.

Helping people who may have been exposed to COVID-19 get tested.

Asking people to self-isolate or self-quarantine if appropriate.

Helping people identify the resources they need to safely stay at home.

Why does contact tracing matter?

Contact tracing is an important part of Ohio's COVID-19 response strategy to limit transmission.

The goal of contact tracing is to help prevent further spread of COVID-19, identify hotspots of infection, and protect friends, families and communities from infection.

We will not disclose your identity to your contacts; however, if you test positive, we encourage you to notify people you have been around if you feel comfortable doing so, so that they respond to the outreach and begin to stay home, too.

What can I expect?

If you test positive for COVID-19, someone from the health department may reach out to:

Check-in on your health.

Ask where you have recently spent time with others.

Help connect you with resources needed to safely stay at home (e.g., food or medical assistance).

Discuss who you have interacted with.

During contact tracing, health department staff will not ask you for sensitive information, such as:

Money

Social Security

Salary

Bank account information

Credit card numbers

Go to coronavirus.ohio.gov for more information.

How can I prepare for contact tracing?

Complete the following sections now to be ready for the reach out if it is needed. This will help you think about places you have been and people you have recently been around.

If you test positive for COVID-19, someone from the health department may reach out to

check-in on your health, help you identify resources needed to safely isolate/quarantine, ask where you have spent time with others and discuss who you have interacted with. Complete this form now to be ready for the call.

Things to think about. Have you been:

To work or school?

Together with others (at a restaurant or bar, gym, party, over to your house)?

To a store in person (grocery store, mall)?

To in-person appointments (salon, doctor's office)?

In a vehicle with others (Uber or Lyft, public transportation)?

Inside a place of worship?

Step 1

Make a list of the people in your household.

Include people who live in your home, and people who may have visited like friends, a babysitter or anyone else providing in-home services.

If you have more people to list than the space provided, write on another piece of paper.

Person's name	Date last in home	Phone
1. _____	_____	_____
2. _____	_____	_____
3. _____	_____	_____
4. _____	_____	_____
5. _____	_____	_____
6. _____	_____	_____

Step 2

Make a list of what you did each day using as much detail as possible.

Include things like hanging out with neighbors, going to work, running errands, appointments, social or recreational activities outside the home, and if you used public transportation to get there. Use another piece of paper if needed.

To calculate your start date for potential exposure:

Write down the date you first felt sick if you have had symptoms OR your test date if you have had no symptoms: ____/____/____

Now write down the date 2 days before that day: ____/____/____ **This is your start date.**

	Activity	Location	Name	Phone
____/____/____ Start date	_____	_____	_____	_____
____/____/____ Day 2	_____	_____	_____	_____
____/____/____ Day 3	_____	_____	_____	_____
____/____/____ Day 4	_____	_____	_____	_____
____/____/____ Day 5	_____	_____	_____	_____
____/____/____ Day 6	_____	_____	_____	_____

Go to coronavirus.ohio.gov for more information.

You can locate the contact information for your Local Health District by visiting <https://odh.ohio.gov/wps/portal/gov/odh/find-local-health-districts> or contact the Ohio Department of Health with any questions you have about COVID-19 at 1-833-4-ASK-ODH (1-833-427-5634).

Note: The call center is staffed from 9 a.m. to 8 p.m. each day.
