### **Get your COVID and Flu Shots to be ready for Holiday Gatherings**

Winter viruses are occurring early this year, especially for our kids. With Thanksgiving weeks away, there is no better time than now to get your COVID bivalent booster and flu shot.

The Putnam County Health Department will be providing flu shots and COVID boosters at various clinic locations throughout the county. No appointments are necessary at the clinics, as they are walk-in clinics. If you prefer to have an appointment, please call the Putnam County Health Department at 419-523-5608 to schedule. It is also recommended to make appointment at the health department for young children who need a flu vaccine and who may be better served in the office setting.

The influenza and COVID booster vaccination clinics that are open to the public include:

- November 17, 2:30-4:00pm at St. Nicholas Parish Hall (201 Main Cross St. Miller City)
- November 18, 2:30-4:00pm at St. Joseph’s Parish Hall (135 N. Water St. Fort Jennings)
- November 21, 2:30-4:00pm at Ottoville VFW (103 E St. Ottoville)
- November 22, 10:00-11:30am at Dupont Town Hall (9 Liberty St. Continental)
- November 22, 1:00-2:30pm at Cloverdale Town Hall (173 Plank Rd. Cloverdale)

For more information, visit the PCHD website at [www.putnamhealth.com](http://www.putnamhealth.com).
